No. 489.—The following resolution of the Government of India is reproduced:—

DEPARTMENT OF REVENUE AND AGRICULTURE.

AGRICULTURE.

Sole, October 1912.

No. 58—4—3.

RESOLUTION.—The following Rules and Regulations which have been provided for carrying out the provisions of the United States Plant Quarantine Act of 20th August 1910 as amended by the Act of March 4th, 1912, are published for general information in pursuance of the rules published with the Revenue and Agriculture Department's Resolution No. 17—4—3, dated the 1st April 1912.

NOTES AND REGULATIONS FOR CARRYING OUT THE PLANT QUARANTINE ACT.

INDEX AND REGULATIONS.

Regulation 1. Short Title of the Act.

The Act "To regulate the importation of nursery stock and other plants and plant products; to enable the Secretary of Agriculture to establish and enforce quarantine districts for plant diseases and insect pests; to provide and regulate the movement of fruits, plants, and vegetables therefrom, and for other purposes," approved August 30, 1874 (37 Stat. 310), as amended March 4, 1914, shall be known and referred to as "The Plant Quarantine Act."

Regulation 2. Definitions.

For the purpose of this Act the term "nursery stock" includes all field-grown florists' stock, trees, shrubs, vines, cuttings, grafts, mosses, bulbs, fruit pine, and other kinds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation, except field, vegetable, and flower seeds, bedding plants and other greenhouse plants, bulbs, and cacti.

The following classes of plants are included in nursery stock as defined above: Fruit trees, fruit-tree stocks, nut trees, grapevines, bush fruits, roses, rose stocks, forest and ornamental trees and shrubs (such as deciduous and ever-green), field-grown florists' stock, cuttings, solens, or seedlings, fruit pine and other seeds of fruit and ornamental trees or shrubs, and other plants and plant products for propagation not otherwise listed, except as noted above.

All woody plants and parts thereof for propagation or planting are included within the term, "nursery stock," as used in this Act.

"Field-grown florists' stock" is all florists' stock which is usually grown outside of greenhouses for all or part of the year.

"Herbaceous plants" are plants which perish annually down to (sometimes including) the root; that is, such, succulent plants.

Regulation 3. Application for Permits for Importation of Nursery Stock.

Persons contemplating the importation of nursery stock shall first make application to the Federal Botanical Board for a permit stating in the application the name and address of the exporter, the country and locality where grown, the port of entry, and the name and address of the importer in the United States to whom the permit should be sent.

Applications for permits should be made in advance of the shipment of the nursery stock, but if, through no fault of the exporter, stock should arrive before the issue of a permit the stock will be held in customs custody at the risk and expense of the importer for a period not exceeding 30 days pending the issue of a permit.

Applications may be made by telegraph, in which case the information required above must be given.

The port of entry is the port where the stock is cleared from customs and the duty paid, and is then free and unreservedly the port of arrival.

Seeds and plants not included in "nursery stock," as defined in regulation 2 and not under specific quarantine, may be imported without permit or compliance with other provisions of the Plant Quarantine Act.

Permits are not required for nursery stock entering the United States for immediate transportation in bond to foreign countries.

Permits for nursery stock entering the United States for immediate transportation to interior points in bond are required only at port of entry.

Two forms of application are provided: (1) for importation of nursery stock from countries which maintain nursery stock inspection in accordance with regulations 2 and 3; and (2) for importation from countries which do not maintain nursery stock inspection in accordance with regulations 6 and 7.

APPLICATION FOR PERMIT TO IMPORT NURSERY STOCK FROM COUNTRIES WHICH MAINTAIN NURSERY STOCK INSPECTION.

In the Federal Botanical Board, Washington, D. C.

Sub: A permit is requested for the importation of nursery stock, including the following pages:

(Scientific name to be given)

during the period....., 1911, to June 30, 1911.

from.....

(Name and address of exporter.)

grows in the country of....., locality of.....

Port of entry.....

Name and address of person (either applicant or his agent or broker) to whom permit should be mailed.....

Very respectfully,

(Name of applicant.)

(Address.)

No statement of quantity to be imported need be made in the application.

Except as in place, a statement as to the source of nursery stock to be imported is not required in the application; but full information must be given in the notes required by regulation 4.

Regulation 6. Entry of Nursery Stock.

Entry of nursery stock from countries which maintain a nursery stock inspection will not be allowed unless the importer is accompanied by an original certificate, and unless such certificate bears a copy certificate, issued by a duly authorized official of the country from which it is exported, stating that the nursery stock covered by the certificate has been thoroughly inspected by him or under his direction and found, or is believed to be free from injurious plant diseases and insect pests. Nursery stock exported between October 1 and May 31 shall be inspected no later after the 1st of October, and stock exported between June 1 and September 30 shall be inspected at the time of packing.

Nursery stock from countries which do not maintain a nursery stock inspection will be admitted into the United States only for experimental purposes and in limited quantities under special permits through ports designated thereto. (See regulation 5.) Such nursery stock shall not be delivered to the importer or consignee until it has been examined by an inspector of the Department of Agriculture and found to be free from plant diseases and insect pests. *Perishable* nursery stock which, in the judgment of the Federal Horticultural Board, can be cleaned by fumigation or other treatment, may be delivered to the importer, consignee, or agent for the purpose and treatment thereof upon the filing of a veterinary bond, with approved sureties in double the invoice value of the property (the amount of the bond is to read to wit: that \$20 not less than \$1 per plant in case of denizens and denizens of the United States), conditioned upon the delivery thereof to the Collector of Customs within 40 days from date of arrival and providing that the same shall not be removed from the port of entry until a written certificate is given to the Collector of Customs by the inspector of the Department of Agriculture that the nursery stock in question has been properly treated. Nursery stock imported, as provided herein, which is found to be carrying any plant disease or insect pest, and which, in the judgment of the Federal Horticultural Board, cannot be cleaned by fumigation or treatment, shall be refused entry. All charges for storage, cartage, and labor incident to inspection, other than the services of inspectors, shall be paid by the importer.

If a package of nursery stock offered for entry includes any prohibited article, the entire package will be refused entry.

Each case, box, or other container or wrapping of nursery stock offered for entry shall be plainly and correctly marked to show the number of plants, the general nature and quantity of the contents, the district or locality and country where grown, the name and address of the exporter, and the name and address of the consignee.

Regulation 7. Foreign Certificates of Inspection.

Each certificate and copy certificate shall give the date of inspection; name of the grower or exporter; the district or locality and the country where grown; a statement that the stock has been inspected by a duly authorized official and found, or believed to be, free from insect pests and plant diseases. The original certificate shall be signed and sealed by, and the copy certificate shall bear the seal of, the responsible inspection official for the country of origin.

Lists of officials in foreign countries authorized to inspect nursery stock, giving their names and official designations, will be furnished to Collectors at Customs through the Secretary of the Treasury.

Regulation 8. Entry of Shipped by Air.

Immediately upon the entry and before removal from the port of entry of nursery stock, for each separate shipment or consignment thereof, the permittee shall notify the Secretary of Agriculture through the Collector of Customs where entry is made on forms provided for that purpose, stating the number of plants, the general nature and quantity of the nursery stock, the country and locality where grown, the date of entry, and the name and address of the consignee to whom it is proposed to forward the nursery stock, together with the possible date of delivery for inspection.

At the same time a copy of the notice to the Secretary of Agriculture shall be sent by the permittee to the duly authorized inspector or other officer of the State, Territory, or District to which the nursery stock is to be shipped. Lists of such inspectors and officers may be obtained on application to the collector of customs or the Federal Horticultural Board, Washington, D. C.

Permits may be cancelled and further consignments of any nursery stock with intent to evade any provision of the Plant Quarantine Act or of any regulation thereunder.

Should a consignee named in such a notice ship or deliver any nursery stock to any other State, Territory, or District such nursery stock before it has been inspected by a duly authorized State, Territory, or District inspector or officer, he shall prior to such shipment give like notice to the Secretary of Agriculture and to the duly authorized inspector or other officer of the State, Territory, or District to which the nursery stock is to be shipped.

Imported nursery stock which has been once inspected will be allowed to move interstate without restriction other than those imposed by the interstate movement of domestic nursery stock.

Regulation 9. Hearings.

When the Secretary of Agriculture contemplates the restriction of the importation of plants and plant products not included within the term "nursery stock" as used in the Plant Quarantine Act, or the prohibition of the exportation of nursery stock and other plants and plant products from any foreign country, or the prohibition or restriction of the shipment of nursery stock and other plants and plant products from any State, Territory, or District of the United States to another State, Territory, or District, he will give a public hearing to interested parties, who may appear either in person or by attorney and give evidence or be heard respecting the subject of the hearing. Due notice of the hearing will be given by publication or otherwise, as may be deemed appropriate, and the hearing will continue a statement of the action which is contemplated and the time and place of the hearing.

The above rules and regulations are hereby adopted and shall be effective on and after July 1, 1913.

D. F. HOWARD,
Secretary of Agriculture.

Washington, D.C., May 16, 1913.

proclamation of such determination by the Secretary of Agriculture, and until the withdrawal of the said proclamation by him, the importation of the class of nursery stock or of other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products specified in the said proclamation from the country and locality therein named, regardless of the use for which the same is intended, is hereby prohibited; and until the withdrawal of the said proclamation by the Secretary of Agriculture, and notwithstanding that such class of nursery stock, or other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products be accompanied by a certificate of inspection from the country of importation, no person shall import or offer for entry into the United States from any country or locality specified in such proclamation, any of the class of nursery stock, or of other class of plants, fruits, vegetables, roots, bulbs, seeds or other plant products named therein, the produce of the soil for which the same is intended: *Provided*, That before the Secretary of Agriculture shall promulgate his determination that it is necessary to restrict the importation into the United States of the articles named in this notice he shall, after due notice to interested parties, give a public hearing under such rules and regulations as he shall prescribe, at which hearing any interested party may appear and be heard, either in person or by attorney: *Provided further*, That the quarantine provisions of this section, as applying to the whole plant *Quarantine Act*, policy, stock, and the *Quarantine Act* by, shall likewise be applicable upon the produce of the said *Quarantine Act*. That hereafter any class of nursery stock or of any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products of which the importation may be forbidden here, any country or locality under the provisions of section 1 of the *First Quarantine Act* approved August twelfth, nineteen hundred and twelve (thirty-fourth Statute, page three hundred and fifteen), may be imported for experimental or scientific purposes by the Department of Agriculture upon such conditions and under such regulations as the said Secretary of Agriculture may prescribe.

Section 8.—That the Secretary of Agriculture is authorized and directed to quarantine any State, Territory, or District of the United States, or any portion thereof when he shall determine that such a dangerous plant disease or insect infestation, now in or not theretofore widely prevalent or distributed within and throughout the United States, exists in such State or Territory or District; and the Secretary of Agriculture is directed to give notice of the establishment of such quarantine to persons carrying foreign business or through such quarantined area, and shall publish in such newspaper in the quarantined area as he shall select notice of the establishment of quarantine. That no person shall stop or offer for shipment to any common carrier, nor shall any person receive or transport for transportation or transport, nor shall any person carry or transport from any quarantined State or Territory or District of the United States, or from any quarantined portion thereof, into or through any other State or Territory or District any class of nursery stock or any other class of plants, fruits, vegetables, roots, bulbs, seeds, or other plant products specified in the notice of quarantine except as hereinafter provided. That it shall be unlawful to move or allow to be moved any class of nursery stock or any other class of plants, fruits, vegetables, roots, bulbs, seeds or other plant products specified in the notice of quarantine heretofore provided, and regardless of the use for which the same is intended, from any quarantined State or Territory or District of the United States, or quarantined portion thereof, into or through any other State or Territory or District, in manner or method or under conditions other than those prescribed by the Secretary of Agriculture. That it shall be the duty of the Secretary of Agriculture to make and promulgate rules and regulations which shall prevent and prevent the importation, distribution, introduction, and method and manner of delivery and shipment of the class of nursery stock or of any other class of plants, fruits, vegetables, roots, bulbs, seeds or other plant products specified in the notice of quarantine heretofore provided, and regardless of the use for which the same is intended, from a quarantined State or Territory or District of the United States, or quarantined portion thereof, into or through any other State or Territory or District, and the Secretary of Agriculture shall give notice of such rules and regulations as hereinafter provided in this section for the notice of the establishment of quarantine: *Provided*, That before the Secretary of Agriculture shall promulgate his determination that it is necessary to quarantine any State, Territory, or District of the United States, or portion thereof, under the authority given in this section, he shall, after due notice to interested parties, give a public hearing under such rules and regulations as he shall prescribe, at which hearing any interested party may appear and be heard, either in person or by attorney.

Section 9.—That the Secretary of Agriculture shall make and promulgate such rules and regulations as may be necessary for carrying out the purposes of this Act.

Section 10.—That any person who shall violate any of the provisions of this Act, or who shall force, intimidate, threaten, or destroy any certificate provided for in this Act or of the regulations of the Secretary of Agriculture, shall be deemed guilty of a misdemeanor and shall, upon conviction thereof, be punished by a fine not exceeding five hundred dollars or by imprisonment not exceeding one year, or both such fine and imprisonment, in the discretion of the court: *Provided*, That no person owner shall be deemed to have violated the provisions of any of the foregoing sections of this Act so long as such person did not knowingly receive his transportation or transport nursery stock or other plants or plant products as such from such State, Territory, or District of the United States or through any other State, Territory, or District and it shall be the duty of the United States attorneys diligently to prosecute any violators of this Act whom are brought to their attention by the Secretary of Agriculture or which come to their notice by other means.

Section 11.—That the word "person" as used in this Act shall be construed to import both the physical and the moral, as the law demands, and shall include corporations, companies, societies, and associations. When observing and enforcing the provisions of this Act, the act, manner, or failure of any officer, agent, or other person acting for or employed by any corporation, company, society, or association, within the scope of his employment or office, shall in every case be also deemed to be the act, omission, or failure of such corporation, company, society, or association as well as that of the person.

Section 12.—That for the purpose of carrying out the purposes of this Act there shall be appointed by the Secretary of Agriculture from existing bureaus and offices in the Department of Agriculture, including the Bureau of Entomology, the Bureau of Plant Industry, and the Forest Service, a Federal

Horticultural Board consisting of five members, of whom not more than two shall be appointed from any one Bureau or office, and who shall serve without additional compensation.

Section 12.—That there is hereby appropriated, out of the moneys in the Treasury not otherwise appropriated, to be expended as the Secretary of Agriculture may direct, for the purposes and objects of this Act, the sum of twenty-five thousand dollars.

Section 14.—That this Act shall become and be effective from and after the first day of October, nineteen hundred and twelve, except as herein otherwise provided.

4. Attention is drawn to the following rules:—

(1) No candidate will be allowed to enter the examination room unless he wears a clean and dressed dress, and, in all cases where good manners require it, a suitable covering for the head, and will be allowed to keep his shoes on unless they are shoes of English pattern, and socks and trousers are worn also.

No candidate suffering from any contagious disease will be admitted to the examination room.

(2) No candidate will be allowed to quit the examination room on any day until the expiration of half an hour from the time fixed for the commencement of the examination, and candidates arriving after the expiration of that half hour will not be admitted.

(3) No candidate will be allowed to re-enter the examination room during the hours of examination after once quitting it, nor to leave the room without finally giving up his answer papers.

(4) Any candidate detected in speaking to, or in any way communicating with, any other candidate will be at once removed from the room, and the circumstance reported to the Commissioner.

(5) Any candidate suspected of having had recourse to any kind of fraud is liable to have his examination cancelled and also to be returned from appearing again for any of the examinations under the control of the Commissioner for each term of years as the Commissioner may think fit, or, if the Commissioner is not satisfied for any reason whatever as to the trustworthiness of any candidate, he may be ordered to undergo a re-examination at some future date to be fixed by the Commissioner in any one or more of the subjects of the examination for which he appeared, his answer or failure being determined on the results of such re-examination.

(6) No candidate will, on any account, be allowed to take into the examination room ink, slates, books, manuscript or papers of any kind. Any one detected in the violation of this rule, or having recourse to any unfair practices, will be removed from the room, and the circumstance reported to the Commissioner. The use of mathematical instruments for drawing figures or ruling lines will, however, be allowed.

(7) Candidates whose names are not in the printed list furnished to the Superintendent must submit a written declaration through the Superintendent, giving full particulars in regard to themselves and furnish such evidence as may be possible of their having applied for admission to the examination at the proper time and paid the prescribed fees. The answer papers of such candidates will not be raised unless it is clear that the entrance of their names is due to no fault of theirs.

(8) Candidates desiring to change their place of examination without previous permission, or appearing at any centre other than the one at which they ought to have appeared according to the notice published in the Gazette, must not expect to have their papers valued or their results published. In all cases where permission has been granted, the communication or letter permitting the change should be produced for the satisfaction of the Superintendent.

(9) A candidate having completed his paper will not take his seat and remain standing until the Superintendent calls his answer papers. Any candidate wishing to ask any question of the Superintendent will pause the same moment, but will on no account leave his place.

(10) Any papers sent up without the candidate's name and number affixed will not be valued.

(11) Candidates will not be allowed to take any papers, except their question papers, out of the examination room.

(12) Candidates are forbidden to tear up papers or to throw ink or papers on the floor. All "spare copies, etc.," should be left on the desk where the candidate has been writing.

EXAMINATION IN SCHOOL MANAGEMENT AND IN THE ART OF TEACHING FOR
EUROPEAN TEACHERS IN EUROPEAN SCHOOLS IN THE MADRAS PRESIDENCY
AND IN THE CIVIL AND MILITARY STATIONS, BANGALORE, UNDER ARTICLE 46
OF THE ACT OF REGULATION FOR EUROPEAN SCHOOLS

As examination in School Management and the Art of Teaching under article 85 of the Code of Regulations for European Schools, Madrid and Tanganyika, will be held on the 10th and 11th December 1953. The proceeds of the examination will be notified later.

4. The examination is open to European teachers who have taught in recognized European schools in the *Peripatetikí* of Athens or the Civil and Military Stations, Bulgaria, for not less than two years since December 31st, 1920, under the observation of the Inspector of European Schools or an Inspector of Girls' Schools and who have obtained the largest or largest number of votes as regards their methods and skills in teaching and in their management.

Applicants should be made on printed forms which can be obtained from the Inspector of Examinations, Old College, Madras, S.W., and should reach the Inspector not later than 17th November 1912. They should be accompanied by a nominal letter, in which should be quoted any remarks made by the inspecting officer on table B of the annual inspection reports of the present and previous years relating to the status of the teacher and his or her eligibility to appear for the examination. It should also be mentioned whether the applicant appeared for the examination in 1912 or previous to it.

Applications from teachers employed in schools under the inspection of an Inspector of General Schools should be submitted through the Inspector concerned in order that the latter may have the opportunity of granting the certificate of eligibility according to the printed form of application. No fee need be paid by the holder of the application, but each teacher who is not found eligible after scrutiny of their applications will be required to pay the prescribed fee (repece fine) before obtaining a license.

3. Applications from teachers who agree to satisfy the conditions of admission on the date of receipt of this notification should be submitted as soon as possible, in order to facilitate verification in the office of the State Board in the applications and to afford ample time for determination of their eligibility or the reverse.

4. Candidates are free to assure themselves that their applications have been received should make an additional postcard in their respective applications. The post card should bear the sender's address only and no other writing. Such post cards will be returned to them in due course with the Examiner's acknowledgment.

5. The following is the curriculum for the examination for the Middle and the Primary Teachers' certificates. The same papers may be set for both grades, but may contain a certain number of questions consisting of a special nature for candidates of the Primary grade:—

George H. Mendenhall.

(g) School buildings and equipment; the bearing of various types of school building on the work of the schools; sanitary conditions and equipment.

(ii) The articles for 6 Ecoreg types of Keweenaw suborder: the framing of cylindrical in different subunits and of bone tubes.

100 Related records including European School registers and returns

4) The moral side of school work and its connection with the home. Formation of habits—manners and moral—such as order, thoroughness, consideration for others, loyalty to fellow-pupils and the school, the individual sense of duty. Importance of studying the individual pupil. Personality of teachers. School drill, common breaches of order and decorum and how to deal with them. Breaches of the moral law and how to deal with them. Relations between teacher and pupil and teacher and society; progress and student reports.

The aim is teaching in the correlation with reading and composition. (6) Grammar, orthography and the use of punctuation, objects, stories, previous lessons, word and sentence building and paragraph structure. (7) The selection value of punctuation; (8) the teaching of sentence and paragraph structure; (9) the value of sentence reading; choice of subjects in relation to the attainment of the goals.

Hand and eye training.—Drawing, the various modes suitable for school work and the utility in practice of such; best methods of handling tools and processes at work; the use of sketches and objects; country drawing; drawing as a training in observation and accuracy as a means of expressing facts and ideas. Correlation of drawing with the other subjects of the school course, i.e., map and plan drawing in connection with history and geography and arithmetic; drawing in connection with object lessons and nature study; drawing in connection with writing; kindergarten occupations and their correlation with the other subjects of the child's education.

Nature study or Elementary Science.—Its aims and methods; the teaching of suitable courses of lessons about natural phenomena, including animal and plant life and elementary physical geography with reference to local circumstances.

Natural work and Elementary Mathematics.—Suitable methods and apparatus, especially practical methods in arithmetic and geometry, and oral methods in arithmetic.

Geography.—Its relation with nature study as the one hand and history as the other—importance of observation or generalization in geography teaching—the real meaning and use of maps—map-drawing and map-reading—other useful apparatus.

History.—Transient errors in teaching it, too much detail, want of perspective, customism as to typical real understanding of its subject matter, failure to bring into any relation with their first-hand knowledge of things, excessive reliance on dull episodes, failure to correlate with geography and language work. Importance of biography, how to select and teach biography. Scarcity of a knowledge of human nature and of realistic treatment. Importance of the study of history as character. How to show up a good syllabus. Ways of dealing with the class text-book. Selection of appropriate poetry, songs and stories in connection with the period studied.

Elementary Science for women (science).—Methods appropriate for the teaching of the course for Middle and Primary schools published by the Department.

General.—Notes and post-taking, their use in school work; home work and exercises, to secure and reward for different classes and in the different subjects, reasons for limiting amount of home exercises as much as possible in lower classes; the correction of home exercises and notes.

The preparation of lessons by the teacher, some of lessons.

Library and Museum.—Their value, methods of encouraging their use by pupils.

For the High school Teachers' certificate, the above curriculum will be followed except that "Hand and Eye Training" under "The Art of Teaching" may be replaced by any two of the following subjects:—

1. Special methods of teaching Latin.
2. Do. French.
3. Do. Physics (or Domestic Economy is the case of women certificate).
4. Do. Mathematics.
5. Do. History and Geography.

4. European teachers in European schools who have not undergone a course of training, or who, though trained, have not passed the written test, at the end of the course of training, are expected to appear for this examination provided that they have satisfactorily completed the two years period of probation; but teachers who have been declared eligible for exemption under 61 (a) and (f) of the Code of Regulations for European Schools, Madras and Bangalore, need not appear.

5. The scheme of the examination will be notified later.

Port Office, Marina,
1st November 1913.

G. R. L. LA TOUCHE, Commander, R.N.M.,
6th, Deputy Commander of the Port.

REVENUE NOTIFICATIONS.

NOTIFICATIONS.

With the approval of Government, the Board of Revenue desires to notify for the information of the public that the under-mentioned draft of amended rule IV of the rules framed under section 22 of Madras Act II of 1904 will be taken up for consideration on or after 1st February 1914, and that all suggestions or objections relating to it should be submitted to it to reach the Board of Revenue before that date:—

Existing rule.

"*IV. Acting officers of village officers.*—The rules laid down in the Civil Service Regulations as regards pay and acting allowances shall not apply to village officers paid from the Proprietary Limited Village Service Fund. When a substitute is appointed during the absence of the permanent incumbent on leave or suspension, the whole pay of the office should be paid to the substitute, except when he holds office in another village, or holds a different office in the same village, in which case the following rule should be observed:—

When a karnam, headman or shikari of a village discharges the duties of two or more villages or of an additional office in the same village, he may, with the sanction of the Divisional Officer, be granted the full pay of both or all the offices in question. This concession is only permissible in the case of short vacancies not exceeding three months. In cases, however, in which a village officer is made to do duty in two or more villages for a longer period, he will, in the absence of special orders to the contrary, be paid the pay allotted to the date corresponding to the combined revenue of both or all the villages."

Board of Revenue (Local Revenue),
Colombo, 29th October 1913.

Proposed draft rule.

"*IV. Acting officers of village officers.*—The rules laid down in the Civil Service Regulations as regards pay and acting allowances shall not apply to village officers of villages in Proprietary Estates. When a substitute is appointed during the absence of the permanent incumbent on leave or suspension, the whole pay of the office should be disbursed by the substitute, except when he holds office in another village, or holds a different office in the same village, in which case the following rule should be observed:—

When a karnam, headman or shikari of a village discharges the duties of two or more villages or of an additional office in the same village, he may, with the sanction of the Divisional Officer, be granted the full pay of both or all the offices in question. This concession is only permissible in the case of short vacancies not exceeding three months."

V. T. KRISHNAMACHARI,
For Secretary.

26. 15.—Whereas it has been found necessary to take steps to control the preparation, presentation and sale of denatured spirits in the Madras Presidency, the following rules have been framed by the Board of Revenue under sections 6, (1), 12, 13, 14, 15, 16 and 17 of the Madras Abkari Act I of 1903 as amended by Madras Act I of 1905 and Act 2 of 1907, in pursuance of the notice contained in Notification No. 14, dated 7th May 1913, published on pages 579-581 of Part II of the Port St. George Gazette, dated 10th June 1913:—

"1. Denatured spirit is spirit rendered effectually and permanently unfit for human consumption by the addition of light carburetture and such poisons have wholly made from a natural source as per specifications appended, or wood-naphtha, or other special denaturants, approved of by the Board of Revenue.

2. Denatured spirit is liable to a duty of 8 per cent. ad valorem; the duty being calculated on the declared base price of such consignments at the distillery, less the discount, if any, allowed to producers and the duty. Distillers should, when applying for a permit, declare the sale price of the spirit at the distillery for the purpose of calculating the ad valorem duty.

3. Denatured spirit may be manufactured by bottom of distillery houses in the Presidency, provided (1) that the light carburetture and pyridine base to be mixed with the spirit must first be tested and approved in the Board's Laboratory; (2) that they must be used in the presence of 1½ gallons of light carburetture and ½ gallon of pyridine base to 10 gallons of the spirit; and (3) that the spirit shall not be of less strength than 50 per cent. overproof. Similar conditions apply to the use of wood-naphtha, in the special cases where its use is permitted, with this difference that one part by weight of crude wood-naphtha of a strength not less than 50 per cent. overproof shall be mixed with nine parts of spirit and that the use of wood-naphtha in a highly purified condition will not be permitted. The Board's previous sanction should be obtained in cases of special methods of denaturation for spirit intended for use in particular arts and manufactures.

4. Spirits denatured with light carburetture and pyridine base may be imported by sea, but samples must be submitted to the Board's Laboratory and then sealed to be fully denatured before it can be removed from the custom-house. In the case of spirits by sea from other Presidencies a certificate from the Collector of Customs at the port of shipment to the effect that the spirit has been fully denatured with light carburetture and pyridine base as laid down in rule 3, may be accepted in lieu of the Board's report. Spirit that is not sufficiently denatured must either be returned to the port of origin or be destroyed at the full tariff rate. Spirit treated with wood-naphtha or other special denaturants may be imported only into the special markets of the Board.

5. (a) Spirit denatured with light carburetture and pyridine base may be imported from other Presidencies by land with the previous permission of the Collector, provided that the spirit to be imported has been fully denatured as laid down in rule 3 and provided also that such spirit is transported from the frontier to its destination under cover of a permit in form M.S. 1 to be obtained from the Collector in such case. Spirit treated with wood-naphtha or other special denaturants may be imported by land only with the special sanction of the Board.

8. Holders (M.S.—3) for sale of spirit destitute with light mouthpiece and pyridine base will be issued by Collectors, on or before, in responsible application as their showing that they have a legitimate demand for such spirit. All such applications should be forwarded to the Collector through the Inspector of the Salt, Alkali and Customs Department of the Circle in which the applicant wishes to hold his license. No such license will be issued to persons licensed to sell liquor for consumption on the premises.

9. The holders of M.S.—1 licenses may obtain their supplies of spirit from the custom-house or distillery on production of a written permission (M.S.—2) for the removal of the same from the Collector of the district in which the custom-house or distillery is situated. Books of form of application for such permission (M.S.—3) will be supplied to them. These applications should be forwarded to the Collector concerned through the Collector of the district in which the applicant wishes to transport the spirit. The spirit may also be obtained from a depot licensed for the wholesale vend of the spirit in quantities not exceeding 150 gallons at a time or from either M.S.—4 licensees up to a maximum of 50 gallons at a time on production of a requisition in form M.S.—8. The licensees are also empowered to sell spirit to other licensees and to holders of M.S.—1-a licenses up to a maximum of 50 gallons at a time. The transport of spirit thus sold shall also be covered by a permit to be granted by the officer in such case. Books of permits (M.S.—9) for the transport of the spirit to be obtained from holders of M.S.—4 licensees in quantities exceeding one gallon but not exceeding 50 gallons will be issued to holders of three licenses on application to the Collector of the district in which they carry on their business.

Destitute spirits may also be imported from other Presidencies by land subject to the conditions laid down in rule 4 (a) supra.

10. Vendors who hold others requiring spirit destitute with light mouthpiece and pyridine base for use in their business, but not for sale, will be given special licenses (M.S.—2-a) on application, approved by collectors as to their requirements through the Inspector of the Circle, to the Collector of the district in which they carry on their business. They will be supplied by distilleries or through the custom-house on production of a permit (M.S.—2) to be obtained from the Collector on application in form (M.S.—3). These licenses may also obtain their supply of spirit from a depot licensed for the wholesale vend of such spirit in quantities not exceeding 150 gallons at a time or from holders of M.S.—1 licensees up to a maximum of 50 gallons at a time. Destitute spirits may also be imported from other Presidencies by land subject to the conditions laid down in rule 4 (a) supra.

11. Holders of M.S.—1 and M.S.—1-a licenses will, on application to the Collector of the district in which they carry on their business, be furnished with books of requisitions (M.S.—8) authorizing them to obtain spirit destitute with light mouthpiece and pyridine base in quantities exceeding one gallon but not exceeding 50 gallons at a time from holders of M.S.—1 licensees, and in quantities not exceeding 150 gallons from a depot.

12. Distillery licenses (M.S.—1-a) will be given to Christians and others who, for special reasons, require spirit distilled with wood-spirits. The procedure will be the same except that (unless the Board has given a special authority to import) the spirit will be obtainable only from local distilleries and that the licensee will be required to store it in a bond (M.S.—4) with the Collector undertaking to use the spirit for the purposes specified and no other. The license to be used in this case will be M.S.—1-b, M.S.—5, M.S.—8. Persons holding these licenses will also be allowed to sell such spirit up to a maximum of one hundred gallons at a time, on the use of a permit ordered in writing by a competent official. Such orders are to be issued by the officer in his own hand and the latter is empowered to re-allocate them.

13. A special license in form M.S.—2-c will be issued by the Railway Companies in the Presidency for the storage and use of spirit destitute with light mouthpiece and pyridine base and its distribution to such stations as they respectively know, as may be specified in the license, provided that the licensee enter into bond with the Collector undertaking to use the spirit for the purposes specified in the license and no other. The licensee may obtain their supplies of the spirit from the custom-house or distillery on production of a written permission (M.S.—2) to be obtained from the Collector of the district in which the custom-house or distillery is situated, on application in form M.S.—3. The spirit may also be obtained from a depot licensed for the wholesale vend of the spirit up to a maximum of 150 gallons at a time on production of a requisition in form M.S.—8. Books of applications or requisitions may be issued from the Collector of the district in which the license is held. The Railway Companies will be exempted from taking out deposits bonded for individual stations for the presentation and use of the spirit received from the M.S.—1-a premises. The transport of spirit should be covered by a permit (M.S.—9) to be granted by the licensee in such case. Destitute spirit may also be imported from other Presidencies by land subject to the conditions laid down in rule 4 (a) supra.

14. A special license in form M.S.—4 will be granted to distilleries who are also manufacturers of destitute spirits for the wholesale vend of such spirits, manufactured in their distillery, not exceeding 150 gallons at one time to holders of M.S.—1 and M.S.—1-a licenses and not exceeding 250 gallons at one time to holders of M.S.—1-a licensees on production of a requisition in form M.S.—8. The transport of the spirit so issued shall be covered by a permit in form M.S.—9 to be granted by the depot-keeper in such case.

15. The customs or distillery officer or wholesale depot-keeper concerned will send an advice in form M.S.—5 of each issue of destitute spirit that he issues to the Inspector of the Circle to which the spirit is consigned. This advice must be sent promptly at the time of issue. No issue of more than one gallon at a time to any one person is permitted from a custom-house or distillery. The same limit will apply to imports of destitute spirits from other Presidencies by land. Collectors granted to them for each import using the advice of M.S.—5 and duly recorded.

16. Coloured permits are prohibited from selling destitute spirit, and from possessing more than one gallon at a time. The same is issued under section 15 of Act I of 1882. Breach of the rule will subject the offender to the penalties provided in the Act.

17. When mouthpiece destitute spirit is again destitute under rule 8 supra, the importer will bear the expense.

18. The maximum strength at which imported and locally-made destitute spirit can be sold will be 60° over-proof.

APPENDIX.

OFFICIAL LABORATORY TESTS TO ASCERTAIN THE PURITY OF SAMPLES OF LIGHT CARBONATES AND PYRIDINE BASES FOR ANALYTICAL PURPOSES.

Light carbonates.

1. *Rebore*.—By "methylamine" is meant the liquid obtained by the dry distillation of reboiled carbon. By "light carbonates" is meant the liquid obtained by redistilling "methylamine" and collecting that portion which passes over at or below about 50° C.

2. *The specific gravity of light carbonates*.—The specific gravity of light carbonates at 50° F. should lie between .825 and .835 referred to water at 15° C.

3. *Boiling test*.—For the purpose of this test, 500 c.c. of light carbonates should be redistilled in the pyridine testing flask (see specifications for pyridine bases). Under these conditions not more than 15 c.c. of distillate should pass over at or below 180° C. (which is total (including the foregoing) of at least 20 c.c. should pass over at or below 160° C.

4. *Absence of soluble materials*.—When 25 c.c. of light carbonates are shaken with an equal volume of water in a stoppered graduated cylinder and the time is allowed for the liquids to separate again into two layers, the light carbonates should show no appreciable dissolution in volume.

5. *Reactivity*.—The aqueous layer obtained from test 4 should show no marked acidity or alkalinity when mixed with both red and blue litmus paper.

6. *Test of inherent solubility*.—At least 10 per cent. of the light carbonates should be soluble in concentrated sulphuric acid. For testing this, 25 c.c. should be measured of into a tapered with ground ends and is very small quantities. After each addition of acid, the cylinder should be shaken and care is to avoid loss of volatile constituents. Sufficient acid must be used (usually about 40 c.c.) for the high acid used layer to become a quite field so that it can separate readily from the upper layer of concentrated sulphuric acid. After a final thorough shaking and cooling, the cylinder should be left for about three hours to effect complete separation of the two layers and the lower layer be tapped off. The clear sulphuric acid layer should be again shaken with strong sulphuric acid until it appears free from soluble carbonates (as judged by the colour imparted to the sulphuric acid) and separated as before after standing. It should finally measure not more than 7 c.c. The acid test should be of specific gravity 1.84 and may be of commercial quality.

7. *Freedom from water*.—Light carbonates should not contain any appreciable amount of water. Any others suggested in distilling samples for test should verify on the bottle that he has down the sample from the bottom of the retorting vessel where the water, if present, will be found. For this purpose he should employ a siphon tube of which the shorter limb reaches to the floor of the retorting vessel. He should also secure himself that the sample is collected in a bottle free of moisture.

Pyridine base.

1. *Colour*.—The colour must not be darker than that given by two cubic centimetres of decolourised indigo solution described in one litre of distilled water.

2. *Abundantly with water*.—20 c.c. of the pyridine base should give a clear mixture with 40 c.c. of water; or else a mixture only is slightly opalescent and, after standing for five minutes, ordinary newspaper type is clearly visible through a layer 10 c.m. deep.

3. *Absence of water present*.—From 20 c.c. of the pyridine base mixed with 20 c.c. of caustic soda solution (density 1.4), at least 185 c.c. of the base should separate, after having been repeatedly shaken together and allowed to stand.

4. *Reaction*.—Dissolve 1 c.c. of the pyridine base in 50 c.c. of distilled water. Thence with moist sulphuric acid until a drop of the mixture gives a definite blue spot on cheap red paper (the blue colour should at once disappear). At least 10 c.c. of the caustic sulphuric acid should be required to produce this reaction. (To prepare the reagent paper, dissolve one gram of compound in one litre of distilled water. Soak filter paper in this and then dry).

5. *Caustic alkali reaction*.—Thoroughly shake together 10 c.c. of a solution of 1 c.c. of pyridine base in 100 c.c. of distilled water with 5 c.c. of a 5 per cent. solution of dry fused calcium chloride. A distinct crystalline precipitate should immediately result.

6. *Boiling point*.—Distil 100 c.c. of the pyridine base in the manner described before. At least 80 per cent. should distil over at or under 140° C.

7. *Distillation*.—(10 c.c. of pyridine base are placed in a short-necked copper flask of about 200 c.c. capacity. The flask is arranged on an asbestos stand which has a circular hole of 30 mm. diameter cut in it. To the flask is attached a condensing column (consisting of a tube 15 c.m. wide and 170 c.m. long, provided with one half of which the side tube (consisting of 1 c.m. above the bulb) joins a Liebig's condenser of which the cooled part is at least 400 c.m. long. A standard thermometer is placed in the head of the column so that its bulb occupies the centre of the bulb of the column. The speed of distillation is regulated so that 5 c.c. per minute, the distillate being received in a graduated glass cylinder. At least 50 c.c. should distil over at or under 140° C. at a barometric pressure of 740 m.m.

If the barometric varies from 740 m.m., a correction of 1° C. for each 30 m.m. of variation should be applied (e.g. under 770 m.m. of pressure 80 per cent. of distillate should come over at or under 140° C., whilst under 760 m.m. the same amount of distillate should come over at 139° C.).

Notes.—Pyridine proper is a single definite compound (C₅H₅N) boiling at about 108° C. Pyridine base are mixtures of pyridine with closely allied compounds boiling at various temperatures. They are cheaper and more effective disinfectants than the pure pyridine.

TENDERS FOR SUPPLY OF BULLOCK CARTS.

Tenders are invited for the supply of seven single bullock carts for the convenience of pupils to the Government Model Training School for Motorists, Royapettah, Madras, at a monthly rate of Rs. 70 per cart. Necessary particulars may be obtained from the Headmaster of the School.

Madras, 10th October 1913.

Inspector of Govt. Schools, Central Circle.

TENDERS FOR THE SUPPLY OF TEA.

Teas offered for the supply of Indian grown black tea required to be delivered between 15th February 1914 and 15th April 1914 will be received by the Deputy Assistant Director of Supplies, 5th Division, at Coimbatore up to 12 noon on Saturday the 2nd January 1914.

2. Offers should be submitted in English and should specify in words as well as in figures the rates at which tea will be delivered. Fractional parts of paise in rates will not be accepted. Offers must be duly signed and completed. The rates should be quoted in rupees per pound or per one hundred pounds.

3. Offers should be sent in a sealed or registered cover superscribed "Office for the supply of tea" to the address of the Deputy Assistant Director of Supplies, 5th Division, Coimbatore, and sent in any other way.

4. Offers will be opened at the office at 12 noon on Saturday the 2nd January 1914.

5. Parties tendering are particularly requested to give their address in full, also telegraphic address if possible.

6. The tenderer is at liberty to offer in part or for the whole quantity mentioned for.

7. Quantities may be made (A) free on rails at the several railway stations concerned, or (B) for delivery of the whole requirements in two instalments within two months between 15th February 1914 and 15th April 1914. P.O.R. Madras or at the Supply Reserve Depot, "The Beach", Madras, which should be specified in the offer. Should any tenderer fail to mention the conditions of delivery, it will be taken to mean that the offer is for delivery at the Supply Depot of each station at requirements.

8. No earnest-money is required but the successful tenderers will be required to execute the usual informal agreement or regular contract dated on 1.6.1913 or 31.12.1913 and 31.12.1913 with or without security deposits as may be necessary. The following special conditions will be included in the agreement:—

The tea shall be aged in the Supply and Transport sample which can be seen by the tenderer at the Supply Reserve Depot, "The Beach", Madras, or at the nearest Supply and Transport Store Depot, i.e., at any one of those mentioned below and is to be free from odour, proportion of dust tea, shall be contained in strong, serviceable boxes (but not of metal or cotton wood) lined with sheet lead, well secured and in merchantable condition and the lids of the box shall be securely nailed down and secured. A uniform quantity of 50 lb. tea should be contained in each box which will be slung in shape, and according to the sealed sample which the tenderer can inspect at the Supply Reserve Depot, "The Beach", Madras, or at any Supply and Transport Store Depot commencing 2' 2" x 11" x 11" and weighing with sheet lead not more than 35 lb. 4 oz. (sheet lead 4 lb. 4 oz. and box about 22 lb.). The total weight of each box is thus not to exceed 79 lb. 4 oz., that is, box with sheet lead should weigh about 35 lb. 4 oz. and tea 40 lb.

Each box should be headed thus:—

BRAND—1914-15.

INDIAN BLACK TEA

Net weight—50 lb.

Gross weight— lb. (to be entered).

From— (tenderer's name to be entered).

The weight of each box with lead foil will not be rigidly limited to the variations in the approximate weight of the own weighing; lead should not exceed 5 lb. for instance 2 lb. more or 3 lb. less may be accepted. Supply tea chests and lead will become the property of Government.

9. The approval or rejection of offers rests with the General Officer, Commanding 5th Division, who reserves to himself the right of rejecting any offer or any item or portion thereof without cause assigned. The lowest tender need not necessarily be accepted. As a rule only successful tenderers are furnished with telegram of the result of their offer. No notice can be taken of requests from unsuccessful tenderers for information by telegram unless the cost of such telegram is prepaid.

10. Alternative rates may also be quoted for tea packed in thoroughly serviceable tin chests of the ordinary commercial pattern issued at the Registered Borne above described. The tea and other necessary particulars should be clearly specified in the offer.

11. Supplies should be assigned to a Government official (i.e., Officer in charge of supply) of the nearest military tariff rates in all cases whether it is advantageous or not to the purpose.

12. A two-pound sample of tea should be sent to this office, a week before the date fixed for opening tenders free of cost which will be fixed as samples and distributed to stations concerned.

15. The probable estimated requirements are as under which cannot be absolutely guaranteed.

Timber should be sent to Blenheim by registered post addressed to the District Forest Officer, South Hants, N. Hants, as soon as received by him on or before November 25th, 1911. No timber will be considered unless sent by post.

3. Timber to be appraised - Timber for Depots and Ties.

4. Timber must offer value separately for each category of timber in lot I. In the above lot timber should give value per cubic foot of 12 cubic feet, in the case of those a, b, c, d and e and per pole for those f-g-h-i-j-k-l-m-n-o-p-q-r-s-t-u-v-w-x-y-z. Timber must offer value separately per cubic foot of 12 cubic feet for each item in lot II. Timber must offer value separately per pole for each item in lot III-X.

5. Each tenderer whether for lot I or for any item or items of lots II-X or both must be accompanied by an amount money deposit equal to the sum of a shilling for the 100 cubic feet into the Treasury or an amount money note for Rs. 100. The deposit of successful tenderers will be returned as soon as the timber has been opened and in the case of unsuccessful tenderers the deposit will be adjusted towards the first instalment of the purchase money payable under the contract.

6. Each successful tenderer must sign an agreement within ten days of receipt of the District Forest Officer's acceptance of his tender. The substance of the agreement to be entered into must be witnessed by witnesses to the undersigned to be the District Officer, Hants, N. Hants. The successful tenderers will pay a deposit equal to 10 per cent. of the purchase money into the District Treasury or the District Bank as security for performance of the contract and produce the Treasury receipt at the time of signing the agreement. If he fails to sign the agreement or to deposit the security amount, the money deposit received with the tender will be forfeited to Government.

7. Successful tenderers will be required to pay the whole sale amount by the end of February 1912.

8. No removal of timber will be allowed before the value is paid in full.

9. The timber already stored in Hants Depot may be included in any lot before the sale by the tenderer's permission. Each lot in lot II-X is being separately stored and numbered in serial.

10. The District Forest Officer reserves the right to accept or reject any tender without assigning reasons.

Major Collector's Office, South Forest Hants,
Blenheim, West October 1911.

H. ROBERTS,
District Forest Officer, South Hants.

The standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 12 m., and 6 p.m., and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The station of the Barometer is twenty-five feet above the level of the sea, and the position of the daily change is two feet from the ground. The wind, rain and general weather registered are for the nearest Civil Day—from midnight to midnight.

The mean quantity of prey collected since January 1st is 37.64 inches. The average due for the season ended being 31.76 inches.
